

SPECIALTY SERVICES

SKIN CARE

Skin conditions like rash, itching and dryness are common side effects of cancer treatment. Listed below are some helpful products for treating these symptoms.

- Bard Natural Care Gel (Aloe Vera)
- Aquaphor Healing Ointment
- Udderly Smooth Udder Lotion

Free samples are available from your nurse at Radiation Oncology Centers of Ventura County. You can also find these products online and at local drug stores.

HAIR LOSS

Some people lose hair during chemotherapy and/or treatment for brain cancers. The good news is that your hair will grow back. In the meantime, you may want to purchase a wig that matches your hair color. Or, if you've ever wanted to try a new hair color and style, this is an opportunity to experiment. Wigs and hairpieces are available at these locations:

ST. JOHN'S CANCER CENTER OF VENTURA COUNTY
